

IGT Environmental Policy

International Game Technology PLC's (IGT or the Company) goal is to create value for all its stakeholders. The Company is focused on supporting industry, community, and the global environment. Its best-in-class solutions respect both people and the environment while delivering innovation and excellence.

IGT is committed to conducting all aspects of its business in an environmentally responsible manner. Fulfilling its responsibility to protect the environment and reducing the carbon footprint of the whole group, IGT enhances its ability to provide competitive and profitable products and services.

IGT is committed to complying with accepted environmental practices, including the commitment to meet or exceed all applicable compliance obligations.

The Company commit to periodically disclose its environmental metrics through the annual publicly available Sustainability Report to enhance visibility for all interested stakeholders, including its staff, suppliers, and customers.

This policy covers all IGT's entities, affiliates, and facilities worldwide, and it is consistent with the positions taken by the trade associations of which IGT is member. The policy is publicly available on the website www.igt.com.

IGT will actively seek to minimize the creation of waste, reduce the use of natural resources, and prevent pollution by establishing objectives and targets that aim to continually improve IGT's environmental management system.

IGT's main environmental commitments include:

Climate and Energy	<ul style="list-style-type: none">• Continue to improve IGT's energy performance.• Reduce the carbon footprint of the whole IGT group according to the Science Based Target initiative (SBTi) commitments, including the emissions generated through the Company's value chain. (e.g., logistics and supplier engagement)
Waste	<ul style="list-style-type: none">• Improve IGT's waste performance and recycling efforts.• Maintain and improve product circularity.
Water	<ul style="list-style-type: none">• Monitor and reduce water consumption in operations.
Employees	<ul style="list-style-type: none">• Increase employee's awareness and participation in environmental issues.
Product	<ul style="list-style-type: none">• Evaluation of a design model that allows IGT's products to be manufactured while minimizing its impact on the environment involving the entire product life-cycle.• Use of more sustainable packaging materials.

IGT's sustainability strategy is built on four pillars: Valuing and Protecting our People, Advancing Responsibility, Supporting our Communities and Fostering Sustainable Operations.

Environmental issues are dealt with and monitored under the pillar Fostering Sustainable Operations, which is consolidated into the following strategic goals:

FOSTERING SUSTAINABLE OPERATIONS

AMBITION

Fight climate change, promote circularity and enhance sustainable procurement

STRATEGIC GOALS

Fight climate change by identifying risks and opportunities, improving the efficiency of operations and buildings, choosing renewable energy and engaging suppliers and customers in our decarbonization pathway

Promote circularity both of products and processes, for example by choosing materials with reduced environmental impact and by enabling customers to reduce, reuse, recycle and renew. Mitigate the pollution generated by air emissions and use of hazardous chemicals

Vince Sadusky

Chief Executive Officer
