

# TEXAS HOLD'EM FOLD UP® POKER

**PULL UP A SEAT TO THE NEWEST EDITION OF THE WORLD'S FAVORITE GAME**

## TARGET PLAYER

- Novice and experienced poker players who would like to play Texas Hold'em as a video game

## BENEFITS AND FEATURES

- The game plays as a standard Texas Hold'em game, but when players fold their cards, the cards are folded up for the rest of the table to see
  - This allows players to place bets each hand based off of this additional information (for example, if a player folds a King, all remaining players will know that 4-Kings are no longer possible)
- An additional side bet initiates the 7-card stud side bet bonus
  - If players place a five credit side bet, they can win up to 2,500 credits on the bonus!
- Multi-denomination betting allows players to make comfortable betting situations

## DIFFERENTIATION

- Folded cards appearing face up provide remaining players with information that can influence bets made throughout the course of each hand
- Five virtual players make Texas Hold'em Fold Up® Poker perfect for both experienced and novice players

# TEXAS HOLD'EM FOLD UP® POKER

As the player or any of the five computer players fold cards, they are folded up so remaining players can alter bets based off of other players' information.

The multi-denomination option allows players to customize their game so they can make comfortable betting decisions.

Traditional Texas Hold'em game play engages players with the potential of awards won by their own skill.
