

# Mobile Host 2.0

## 21st Century Hosting

Empower your team with helpful hosting tools in the palm of their hand. Identify and register uncarded players and cater to hosted players from one simple app.

### Benefits

- Increase database growth by enrolling uncarded players directly at the machine
- Maximize carded play with a real-time player overview to help hosts cater to players
- Improve customer service by unlocking forgotten PINs directly at the machine
- Measure success with real-time player registration statistics

Empower your hosts and front-line staff. Contact your IGT Account Manager.

### Features

- Real-time player information: uncarded, hot, carded, hosted
- Monitor table player actions
- Scan drivers license bar codes or passports to register new players quickly
- Sort and tally results of new signups—hosts see their own data, managers see all data
- Push notifications of player activity
- Configurable filters for hot players
- Available for handhelds, Samsung Note® and Google Nexus™
