

IGT recognizes that problem gambling is a societal issue that cannot be ignored. As a global leader in the design, development and manufacture of gaming machines and systems products, as well as online and mobile gaming solutions for regulated markets, IGT believes that it is incumbent upon all stakeholders in the gaming industry to take a pro-active approach to problem and underage gambling. Therefore, it is IGT's mission to promote responsible gaming to its employees, its customers and the public at large, and to supporting those agencies and programs committed to researching, preventing and treating problem gaming.

As a gaming equipment manufacturer and technology supplier to the gaming industry, IGT encourages responsible gaming initiatives among its customers and works to create opportunities for public recognition of exemplary efforts. IGT provides resources for customers' responsible gaming activities as well.

IGT is proud to support the American Gaming Association's annual Responsible Gaming Education Week. Every year IGT joins with the AGA and casino operators throughout the U.S. to increase awareness about responsible gaming among gaming employees, casino customers and the general public.

### ***Responsible Gaming Partnerships***

IGT is a major supporter and a member of the two largest organizations in the United States dedicated to reducing problem and underage gambling. They are the National Council on Problem Gambling (NCPG) and the National Center for Responsible Gambling (NCRG). Additionally, IGT and its subsidiaries support and participate in the activities of many regional and global organizations with a responsible gaming-related mandate.
