

# Beverage On Demand<sup>®</sup>

Serve Up Satisfaction

Players can easily place beverage orders right on the game screen. No more locating a server or leaving the machine to head to the bar. Orders are received, processed and delivered to the player quickly and seamlessly.

## Benefits

- Increase customer satisfaction and accuracy of beverage orders
- Maximize casino wait staff efficiency

## Features

- Menu pricing can be configured to change based on time, delivering automatic updates for specific timeframes such as Happy Hour and Graveyard specials
- Orders are sent to and printed at assigned food and beverage outlets
- Location and player name are included on the order
- Web interface allows for easy menu updates
- Assign EGM locations to specific printers to maximize efficiency
- Intuitive Menu Manager interface allows users to customize menu screens
- Set sales tax rates
- Food menus can also be included
- Available for G2S Networks
