DECLINE

Give your players more control and convenience. Eliminate tax forms and paperwork with an innovative and compelling application designed to streamline your operations while enhancing the player experience.

By integrating the Taxable Accrual application with IGT Media Manager, you can offer players the ability to process their own jackpots via the Service Window or sb NexGen® II displays. No more waiting for handpays or completing multiple tax forms. Eligible players are able to continue playing in mere seconds after winning and accepting their jackpots. Operational costs, labor and machine downtimes are also reduced as the system quickly and efficiently processes transactions without manual inputs from staff.

Benefits

- Automate and streamline jackpot handpays
- Increase loyalty and play time
- Decrease machine downtimes
- Significantly decrease errors based on manual entries

Features

- Deploy in high-limit rooms, per game, bank by bank or floorwide on a G2S floor
- Option for traditional handpay or self-service via the Service Window or sb NexGen® II displays
- Data is system provided with no reliance on manual inputs from staff
- Player-validated PIN serves as an electronic signature and is recorded in the log for each transaction
- Credits automatically transfer to the credit meter and the game resets upon completion of transaction
- Federal, state and local rate settings
- Automatic re-enrollment for all days of a trip

Make tax reporting less taxing. Contact your IGT Account Manager.
