

Mobile Fills and Jackpots

Player Service On the Go

Keep your players at their favorite machine and empower your staff to process fills and jackpots at the device.

A staff member simply logs in to the Mobile FJP app on a Windows® 8-enabled tablet to take care of handpays, including W2-G processing, and fills directly at the machine, without having to travel back to a kiosk or terminal.

Link up—contact your IGT Account Manager today.
