

## Cashless Gaming Convenience

For the cashless gaming experience your players have come to expect, the ticketing system that revolutionized the industry delivers every time.

The IGT EZ Pay® ticketing system helps streamline service on the floor, which means your operation runs more smoothly and your players are more satisfied.

Administrative improvements, like archiving and connectivity upgrades, make operations faster. Decrease operational costs and enhance the player experience with EZ Pay® cashless ticketing and cards.

## Benefits

- Decrease operating costs and reduce employees' currency-handling burden with automated cashiering
- Enhance your casino marketing promotions with non-cashable Promo Tickets
- Improve customer service with mobile cashiering – validate and pay tickets anywhere on your floor
- Increase play time with less downtime for machine refills and jackpot payouts

Keep the change and save money. Contact your IGT Account Manager.

## Features

- Supports multi-denomination features of popular multi-line, multi-hand game themes
- One-wire or two-wire configurations
- Batched soft count using multi-scan ticket devices
- Enhanced data collection and meter reporting
- Support for multiple languages and currencies
