

IGT Advantage[®] Cage & Table Accounting

Crunch the Numbers

Save time and money by automating your most arduous tasks with the IGT Advantage[®] Cage & Table Accounting system.

Processing table information, including markers, front money, chips, checks, foreign currency exchanges and inventories, is simple with a user-friendly, touchscreen interface. Robust customer credit functionalities like bank rating, credit tracking and check process features result in better, more accurate credit decisions.

The IGT Advantage[®] Cage & Table Accounting system is just as valuable in the back of the house. Ensure iron-clad security for sensitive credit, player and casino information using limitless access configurations that can be set by employee, job type, workstation or task.

Benefits

- Save time and increase security with streamlined accounting processes
- Reduce risk by accessing Central Credit to assess creditworthiness

Pack your cage and table accounting with power. Contact your IGT Account Manager.
