

Multiple Jackpot Time

Exponential attraction for players

Automatically multiply an eligible winning payout by up to nine times with Multiple Jackpot Time. Flexible configuration lets you select the reward to occur when a bonus pool reaches a pre-determined level and continue until the bonus pool has been depleted.

Differentiate and enhance your players' experience using proven technology from the leader in Bonusing, IGT. Multiple Jackpot Time can be configured or combined with other bonuses to set you apart from competitors and meet your marketing objectives.

Excite your players and increase loyalty. Contact your IGT Account Manager.

Benefits

- Ignite play during slow periods
- Motivate players during specific times
- Enhance the player experience
- Increase branding and loyalty

Features

- Reward players while they are playing
