

IGT Multi-Denomination Multi-Game

Prompt Performance Data

Get a broad overview of your MDMG game performance with this module of the IGT Advantage® System.

Measure performance through a number of metrics to find configurations that your players will enjoy and simultaneously add to your bottom line.

With robust reporting and coverage for all game manufacturers, MDMG reporting is essential to the modern casino.

Know your floor. Contact your IGT Account Manager.

Benefits

- Make better decisions with actionable data throughout multi-denom, multigame floors
- Save time with auto-configuration to mark new MDMG cabinets and list new denomination and payable configurations

Features

- Monitor performance by cabinet, game, denomination
- Compare performance between configurations
- Thorough performance reporting on an accounting basis
- Works for all game manufacturers
- Data exclusively for analysis, not audits
