If the player collects six golden orbs, they will lock in place and trigger the Lock and Respin Bonus. This bonus can award credits from all golden orbs as well as any of the four jackpots.

At the start of the Lock and Respin Bonus, the player is presented with four reel interfaces that unlock as golden orbs are collected. A meter makes it clear how many orbs are needed to unlock an additional reel set, making the bonus easy to follow.

In the Free Spins, the persistence pot can award the Lock and Respin feature as well as Wild symbols that can combine to multiply wins up to 60X.
