

Table Manager

Automate Table Ratings and Functions

IGT Table Manager's fully automated system maximizes rating accuracy, increases productivity, and delivers compelling promotions to table players. With IGT Table Manager, rating and comping table games players is transformed from a time-consuming, manual endeavor to one of simplicity and ease. Incorporate table promotions, like Lucky Chip®, and you have a powerful combination sure to enhance the player experience while improving your operations.

Benefits

- Reduce operating costs by eliminating most traditional “pencil-to-paper” tasks
- Increase productivity by requiring fewer personnel per table to focus on players
- Maximize profits with precisely allocated marketing and comp dollars
- Capture true game handle and reveal player betting patterns
- Reward higher- and lower-tier players appropriately
- Focus on game protection and customer service rather than monitoring and recording wagers

Streamline table management. Contact your IGT Account Manager.
