Sierra27™ Gaming Machine

Refined dual evolution.

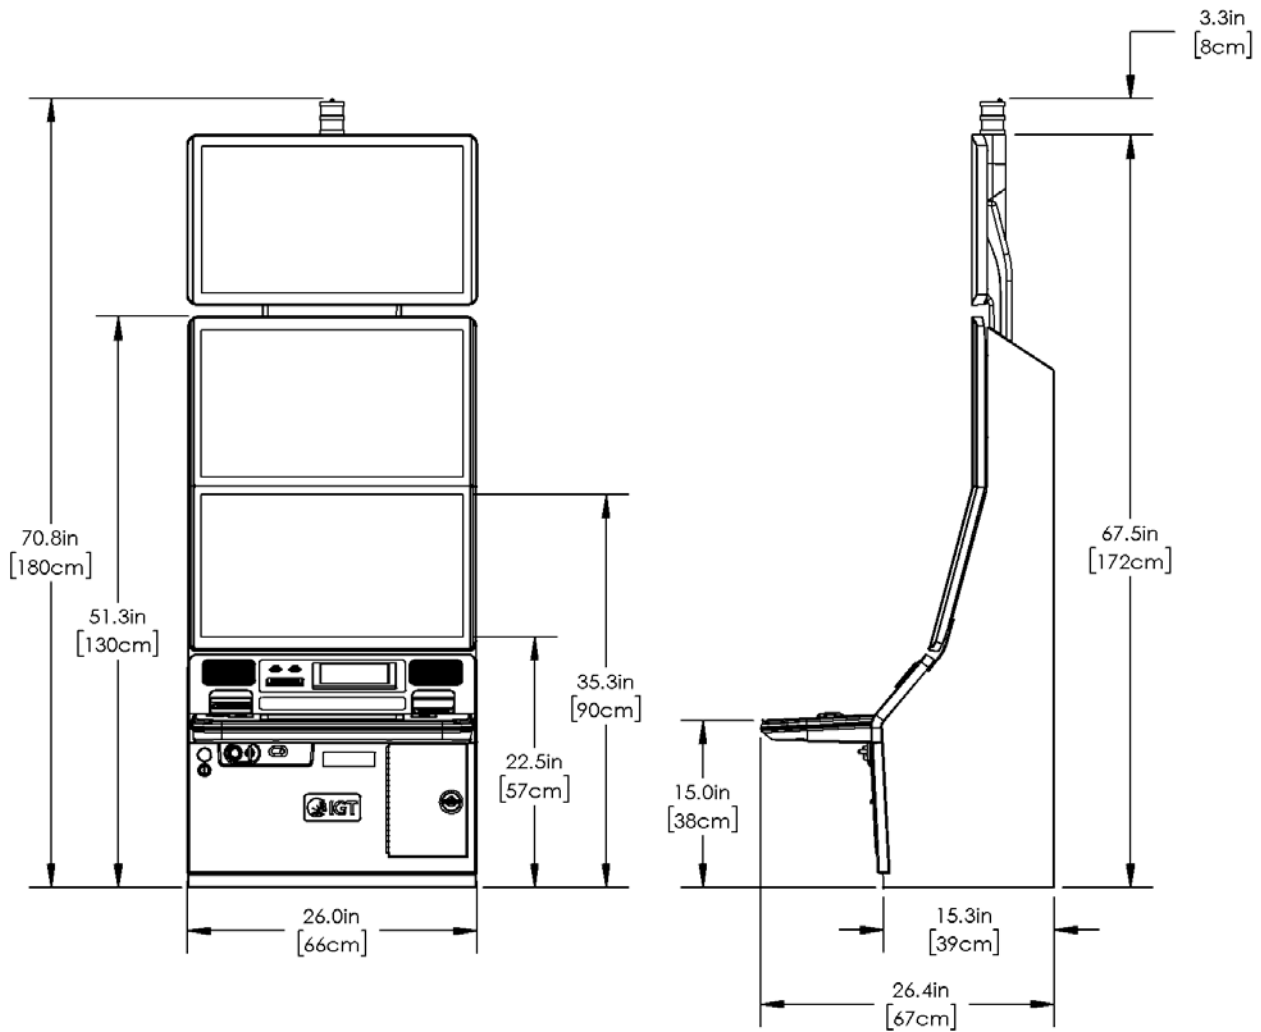

The Sierra27™ gaming machine seamlessly combines enhanced visual displays, player comfort, and convenience to provide the pinnacle of dual-screen gaming experiences. Featuring a streamlined, lower profile with impressive High Definition dual 27" screens, a larger 13.3" Dynamic Player Panel with Dual Bash button deck and wireless inductive charger, and improved serviceability.

Benefits and Features

- **Modern Displays and Design**
 - Full High Definition (FHD) dual 27" screens
 - A larger 13.3" Dynamic Player Panel dual bash with wireless inductive charger
 - Optional 27" topper for an even more immersive gaming experience with a triple 27" display
 - Edge optimized for minimal gaps and optimized viewing angles
 - 51.3" height profile for enhanced player sight lines
 - Modern edge lighting on the displays
 - Innovative integrated stand options
- **Convenient Serviceability**
 - Monitors feature an easy service design for both locations and technicians to access
 - Virtual Cashout and Service Buttons deliver prompt attention and eliminate failure points
 - Flip up button deck features Easy Printer and BV access
 - Separate cash box door for efficient drops
- **Complements IGT's Cabinet Portfolio**
 - The Sierra27™ gaming machine is the next evolution of the industry-leading Cobalt™ 27.
