Fully customizable sidebet selection is available for even more gameplay opportunities.

Easy to navigate, color-coded action bar simplifies the player's decision making.

A user-friendly interface makes it easy to navigate between different game choices, keeping players interested with multi-game action.

Statistics and History ease the player's engagement with the game.

## Side Bets

**Buster Blackjack:** Place a Buster Blackjack side bet on a player hand to bet that the dealer will bust. If the dealer hand busts, the Buster Blackjack side bet is won.

**Lucky Lucky:** Place a Lucky Lucky side bet on a player hand to bet that the first two cards of that player hand and the dealer's first face-up card will form a specific three-card combination. If the three cards form one of the indicated combinations, the Lucky Lucky side bet is won.

**Upcard Luck:** Place an Upcard Luck side bet on a player hand to bet that the first two cards of that player hand will form a specific combination. The Upcard Luck side bet can be won only if the dealer's first face-up card has a value of 2 through 7. The Upcard Luck side bet must be equal to or less than the main bet on the player hand. If the first two cards of the player hand form one of the indicated combinations and the first face-up card of the dealer hand has a value of 2 through 7, the Upcard Luck side bet is won.

**Straight 2 Flush:** Place a Straight 2 Flush side bet on a player hand to bet that the first two cards of the player hand and the dealer's first face-up card will form a Three of a Kind, Straight, Flush, or Straight Flush. If the three cards form one of those combinations, the Straight 2 Flush side bet is won.

**Dealer's Bonus:** Place a Dealer's Bonus side bet on a player hand to bet that the dealer hand will end with a specific value. If the dealer hand ends with the total corresponding to the placed Dealer's Bonus side bet, the Dealer's Bonus side bet is won.
