Spin Ferno® S3000 Tournament v3

Classic favorites that will Tourn you into a believer.

Benefits and Features

- Our newest releases in the TOURNXTREME™ product line, offering a turn-key premium tournament solution, are now available:
 - Elevate your revenue generation by increasing your tournament efficiency, reducing strain on staff resources and minimizing downtime
 - Switch between tournament mode and coin-in mode instantaneously with minimal downtime by removing the reliance on manual adjustments at each machine
 - Walk-up kiosk for easy registration and selection of tournament time slots
 - Cross-promote your properties and run multi-site tournaments (within the same enterprise/company)
 - Drive coin-in by increasing traffic to new or underutilized areas of your floor
 - Maximize player enjoyment through unmatched excitement, better-than-ever celebrations and player-favorite features
 - Appeal to any player demographic with upcoming releases across spinning reel slots, video slots and video poker gaming machines
 - Configurable tournament session times and excitement levels
- Attract more players with custom promotional marketing assets and support
- Add your casino logo or other advertising to the center of the top box and the optional walk-up kiosk graphics
- Load in your own attract content on the new and improved overhead signage to run while the tournament is not in session
- Overhead signage will accompany coin-in themes when not in tournament mode
- This turn-key tournament package includes Tournament Manager software, gaming machines, a sign-in kiosk and optional overhead signage
- Available exclusively on IGT Tournament Manager 6.0:
 - With our all-new Tournament Manger software, you can differentiate your offering by adding your own branding to the top box, and advertise your upcoming events and promotions in the overhead sign

Vivid synchronized bank lighting, popular licensed music, and custom voice cues set the floor ablaze with tournament excitement that keeps players engaged through the entire session and draws in potential players from across the floor.

Increase tournament participation and reduce strain on staff resources with the walk-up kiosk which allows for player self-registration and selection of tournament time slots.

Spin Ferno® Tournament v3

Target Player

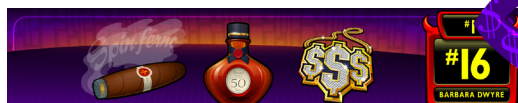

- New and established tournament enthusiasts seeking an exhilarating entertainment experience
- Fans of the classic Gold Bar 7s®, Red Hot Tamales!® and Super Silver 7s® Slots

Benefits and Features

- A modern twist on the popular classic spinning-reel tournaments, with the S3000® gaming machine delivering industry-first synchronized lighting & sound technology that sets the floor on fire with a whole new level of player appeal and excitement
- Recognizable licensed music and voice commands alert players to tournament lead changes while the leaderboard in the top box and optional overhead signage allow for quick recognition of standing
- Interactive tournament game features elevate player adrenaline and bring new energy to your floor:
 - During tournament play, wins are multiplied by 1X, 2X, 3X and 5X on a set time schedule, keeping players engaged and building anticipation.
 - Pick features allow players to touch symbols in the meter panel to accrue points. These vary from picking one item, to picking one of three of the same item, to picking one of three different items, all of which have different point values assigned.
- The main character Diablo connects with players to add fun, mischief, and personality to the gaming experience that resonate and lead to repeat play
- Players collect 20 Burnie symbols to pop the heat-o-meter, raining down Burnie symbols to the meter panel for players to select:
 - When a flaming bar symbol lands on an active payline, it activates a Burnie symbol on the reel divider that gets collected in the heat-o-meter

Custom leaderboard graphics in the top box and optional overhead signage build anticipation and increase competition, showing players their current standing and any time they change positions throughout the session.

Players pick symbols in hopes of accruing the most points during tournament mode, increasing participation with the entire gaming machine and adding a new dimension of play that brings heightened energy to your tournaments.

- Operator-configurable excitement levels put the customer experience in your hands, with four different configurations to choose from
- Tournament sessions are synced, and can be configured with different session times for maximum flexibility:
 - Session-based tournaments:
 - Three or five minute hosted sessions
 - Walk-up tournaments:
 - Three or five minute hosted or unhosted sessions
- Requires a minimum bank of four gaming machines that function as standalone coin-in themes when not in tournament mode

Base Games

- Gold Bar 7s® Slots, Red Hot Tamales!® Slots and Super Silver 7s® Slots feature three reels, 27 paylines, and the Blackout Pays® feature that awards multi-level progressive jackpots
- All three themes will look just like their classic versions while in coin-in mode, only with reel dividers that award Burnie symbols into the heat-o-meter
- All three themes feature the buy-a-pay betting structure that helps drive coin-in, as different base game payouts become available at higher bet levels. Each level builds off the previous level so that when players place the maximum bet, they become eligible for all additional awards:
 - **Bet level 1:** Matching and non-matching bar symbols provide players with additional awards
 - **Bet level 2:** Matching and non-matching 7 symbol combinations provide players with additional awards
 - **Bet level 3:** Wilds and the progressives become available
- The exciting Blackout Pays® feature awards the progressives when all reels are covered with 7 symbols

The new tournament manager features an added element of surprise, where a flaming bar symbol that lands on a payline lights a Burnie head on the reel dividers that is then collected into the Heat-O-Meter.

During tournament play, wins are multiplied by 1X, 2X, 3X and 5X on a set time schedule during the tournament, keeping players engaged and building anticipation.
